Occupational Health & Safety Policy

GASCO is a leading company in the field of natural gas transportation, distribution and processing. GASCO aim to achieve the reasonably highest levels of Occupational Safety & Health Performance, and to meet the needs and expectations of the internal and external interted parties. GASCO is committed to follow all practicable and feasible ways and means to preserve the personnel, equipment, production, internal and external work environment. GASCO also committed with:

- Comply With The Applicable OHS Laws, legislations, regulations, and other requirements related to the its activities, and measure this compliance periodically.
- Identify, Assess and Control All Risks of GASCO’s activities and processes including infrastructure, buildings, equipment and materials, and any changes related to these activities as well as external risks affecting GASCO, in accordance with a proactive approach.
- Set & Implement Programs aimed to protect people whose health and safety may be affected by our activities and minimize incidents, injuries, occupational illness, risks to the lowest practicable limit by following the reasonably means of safe working methods.
- Provide Framework for setting, development and reviewing OHS objectives, targets and programs.
- Manage Emergencies Effectively through Identification of potential emergency situations, Establishing and implementing of emergency response plans, Providing and maintaining of emergency equipment, Provide the appropriate emergency response training and Periodic testing of emergency procedures.
- Dealing with OHS Topics as important as other topics.
- Promote OHS Awareness & Culture to ensure workers safety and appreciate their participation in the implementation of policy, and establish the principle SAFETY IS EVERYONE’S RESPONSIBILITY.

- Implementation Of Hazard Reporting System for any potential or actual hazard, accident, near miss, injury, occupational ill-health, property damage, unsafe act or unsafe condition.
- Investigation & Analysis of Incidents and non-conformities in order to determine underlying OH&S deficiencies; identify the need for corrective action; identify opportunities for improvement and; communicate the results of such investigations to prevent recurrence.
- Ensuring Roles & Responsibilities toward occupational safety and health are cleared and communicated to our workers at all levels with the intent that they are made aware of their individual OHS obligations and commensurate with their tasks/activities and ensure their competencies and skills to perform those roles.
- Enforce Contractors, or entities working in behalf of GASCO to meet GASCO OHS requirements and follow-up their commitment periodically.
- Striving Towards Continuous Improvement of OHS management system, Enhancing of OHS Performance Indicators and Avail their data to the interested parties and analyzing results on a systematic approach and periodic basis.
- Identifying Threats facing GASCO and opportunities to control these threats and develop programs to promote its benefits.
- Review OHS Management System on a regular basis to ensure the system remains documented, implemented, maintained, relevant, appropriate, efficient and effective.
- Communicate This Policy to all persons working under its control; ensure that is available to the interested parties, and provide the necessary resources for its implementation.
